

WELCOME TO THE MONTESSORI POSITIVE PARENTING COURSE!

Are you wondering if you should invest in this? Or why it's a better choice for you than other courses out there? Let's start by answering 6 essential questions:

1. Do you need something that starts working straight away because you have limited spare time available?

- This course is simple to follow with short, clear topics.
- I've included all the techniques you need to make changes straight away from just a few minutes each day.
- You don't need to spend thousands of pounds and hours training, studying, reading, trialling a huge variety of parenting techniques and finding out what works best - because I've already done that!
- This course is a simple way for you to get the solutions your family needs right now.

2. Do you want a course that's easy to understand and put into practise right from the start?

- Everything I share with you will help you quickly transform your family life - starting today.

3. Are you wondering what Montessori is all about?

- The Montessori method is based on years of scientific observation of children from birth up to adulthood. Dr Maria Montessori was the first female doctor in Italy; she was incredibly motivated and intuitive.
- The facts that she observed about child development are now being proved with modern neuroscience!
- Her discoveries have been shared all around the world. For example, she was the first person to create child-sized furniture.
- She realised that children want to do things for themselves as much as possible because this allows them to develop into capable, confident adults.
- Children innately know how to learn and develop. Humans have instincts that guide us towards walking, talking, exploring, perfecting and creating anew.
- Montessori is about *SELF-EDUCATION* and *SELF-DISCIPLINE*.

4. Do you want your child to develop self-discipline so they don't always need you to find a positive solution?

- Montessori is all about seeing things from your child's perspective and helping them develop self-discipline right from the start.
- We do this by giving freedom to move, positive language, and opportunities for independence. We offer fun and interesting learning activities for your child to choose and use their natural energy in positive, purposeful ways.
- Self discipline allows your child to WANT to do the right thing so they can be a happy, kind and useful human being in our world.

5. How will this help you as a family?

- You'll get an understanding of the challenges your child is facing as they grow up.
- This course will teach you easy ways to help your child be assertive and verbalise what they need. They will feel useful, valuable and capable.
- When your child feels confident and happy it makes everyday life enjoyable for everyone.
- You'll learn how to help your child argue less, cooperate more and be open about their feelings, so they can move through them and on to something more positive.
- You'll get loads of ideas for positive activities to boost connection and overall happiness and reduce negative incidents each day!

6. Will this make a difference to your lives long-term?

- These days, schools and employers are focusing on *21ST CENTURY SKILLS* as well as academic skills.
- *21ST CENTURY SKILLS* are important life skills like perseverance, curiosity, decision-making and confidence.
- Montessori education has been supporting children to develop these skills for over 100 years!
- This course gives you fun ways to help your child develop important life skills in your normal family life.
- You don't need to spend more money on toys or find extra time in your day. Everything will fit into your life and help you make more of the time you have together.
